Now with a Single Hand Motion Tab Opening

Current BPU RBC Storage Container

Revised BPU RBC Storage Container

Integrated Tab Design

Non-DEHP Material

Bioflex® RC Blood-Pack® Unit

The Bioflex RC Blood-Pack Unit (BPU) is a disposable Red Cell (RC) Leukoreduction Filtration system (Bioflex RC BPU).

The red cell storage container and satellite container components of the BPU are joined with transfusion sets via the BPU spike port when transfusing blood products.

The Bioflex RC BPU has recently undergone container design revisions and material changes.

- The integrated tab design is functionally equivalent to the previous version.
- Spike port is ISO 3826-1 compliant.
- All blood component storage containers continue to be a non-DEHP (BTHC) from alternate supplier.

Revised Spike Port Design

Increased area and more positive grip for tab-opening

▶ Previous Tab - Peel Design

▶ Revised Tab - Tear Design
